Anhui Welcome Foreign Trade Co.,Ltd
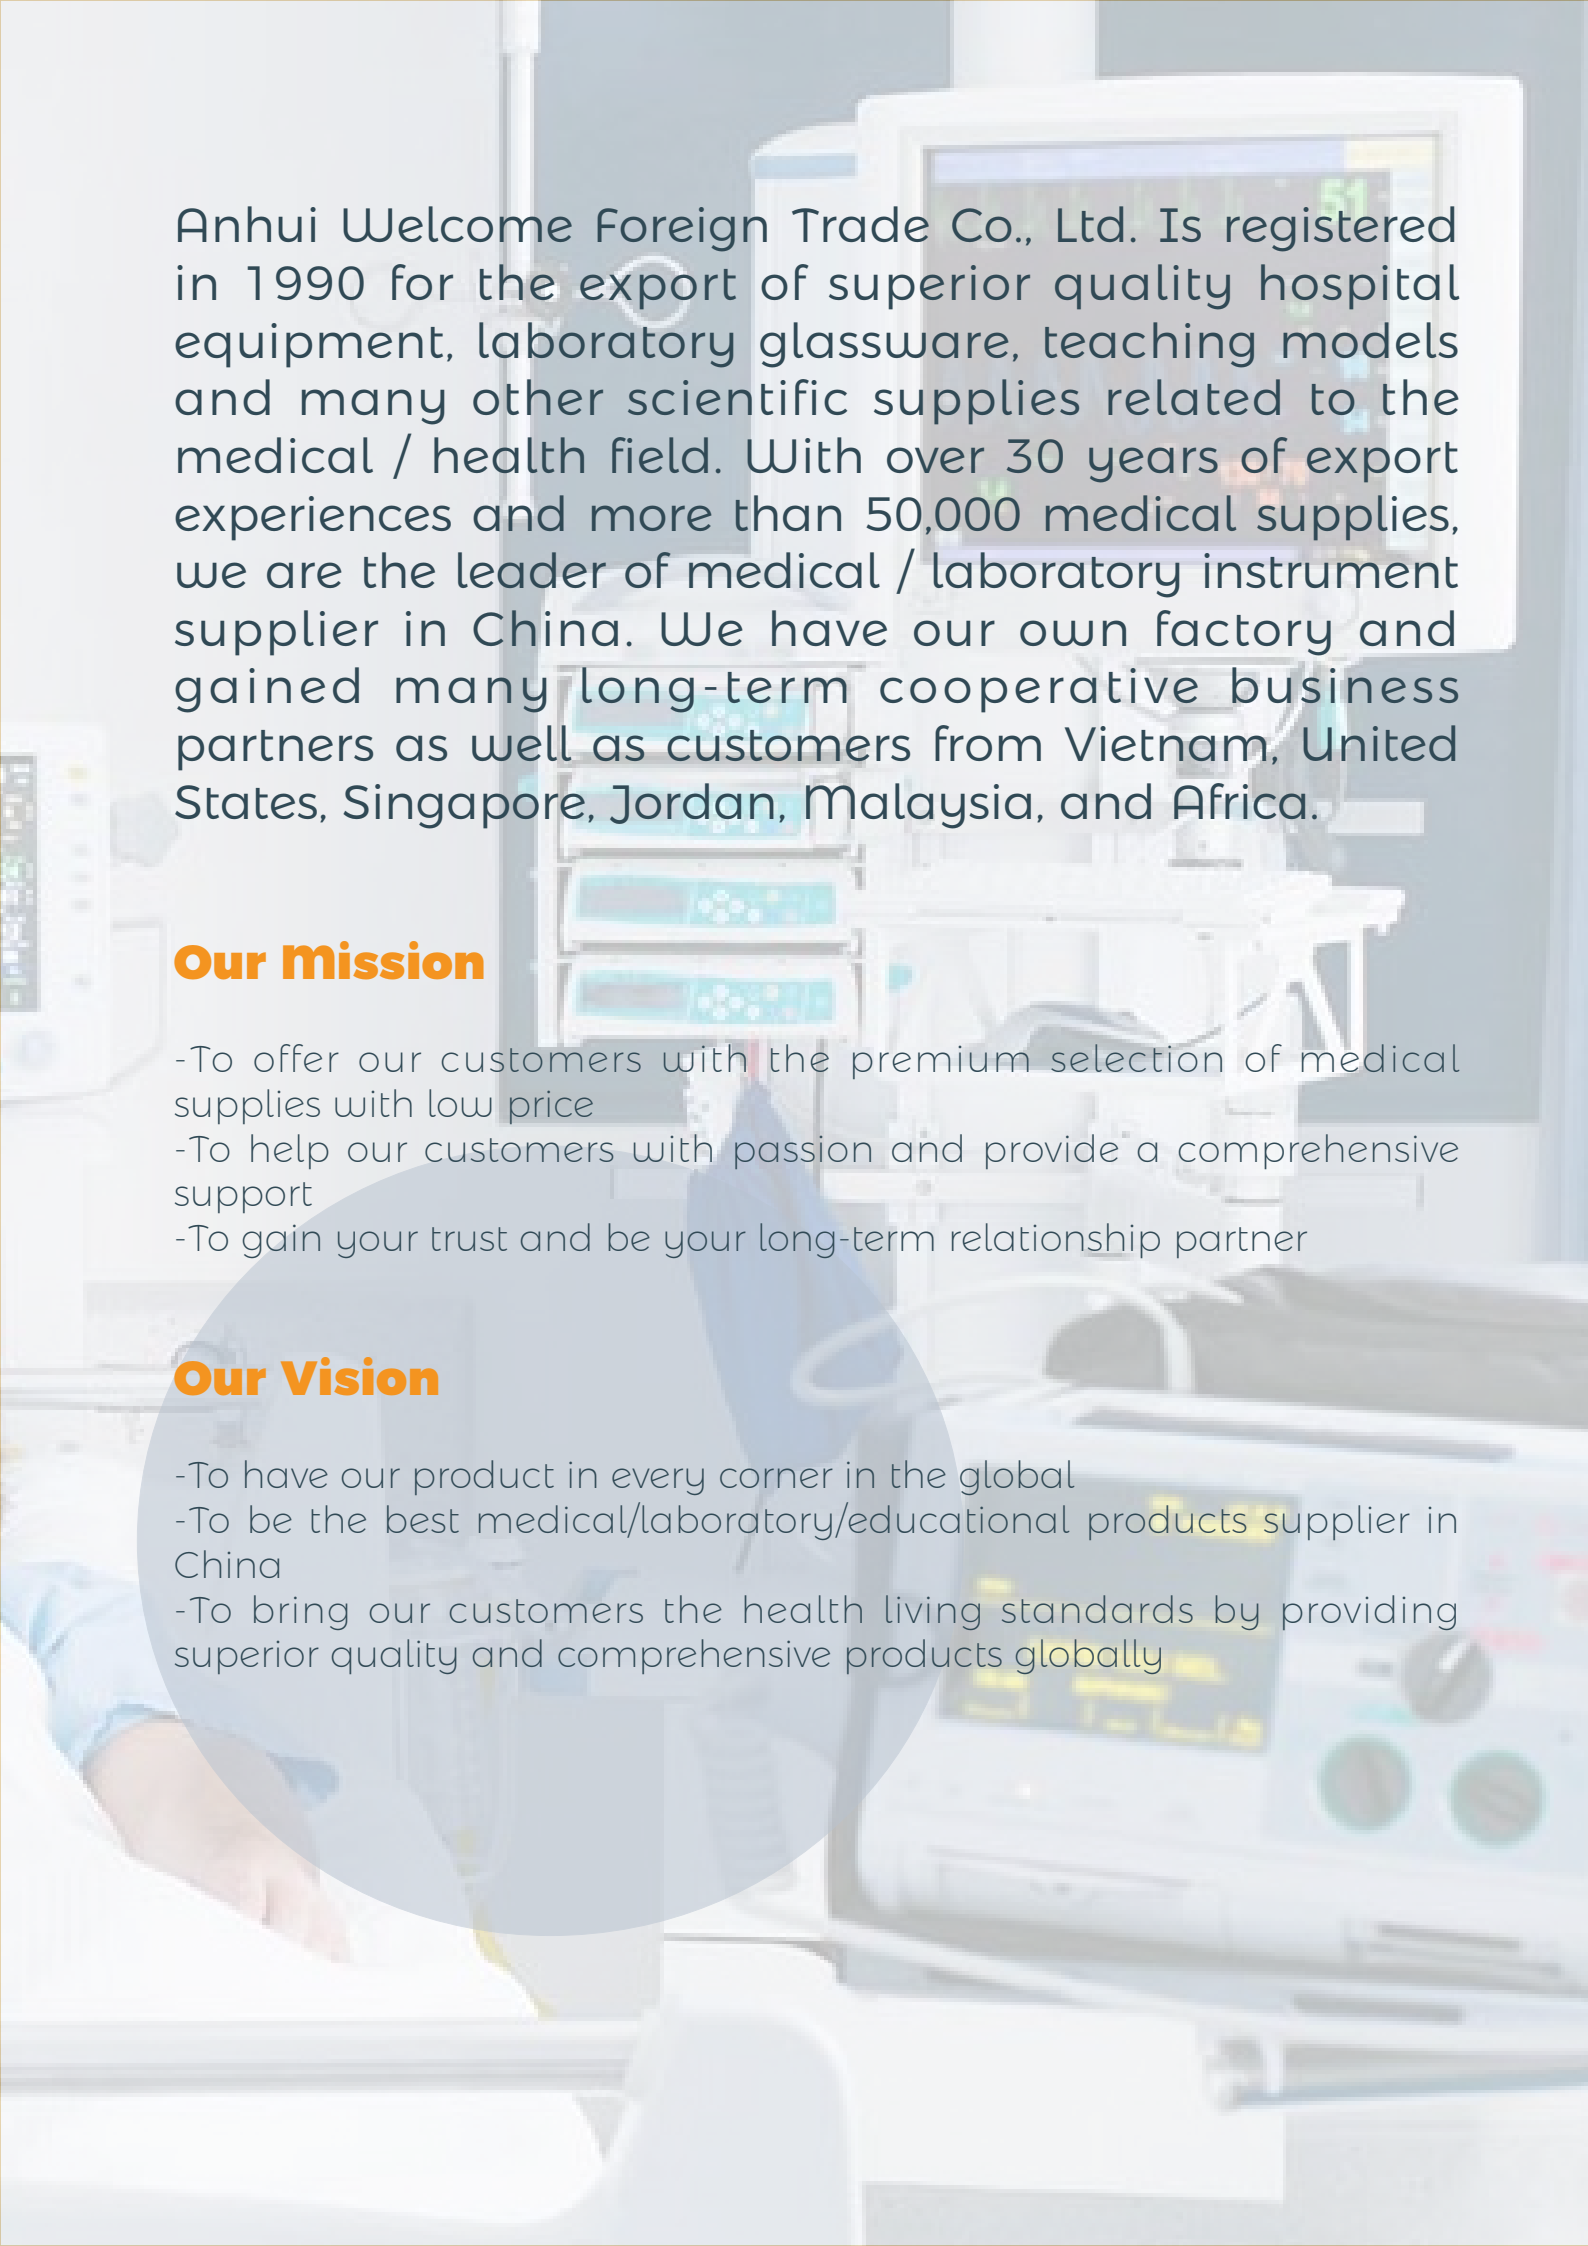

Medical Products Catalog

Anhui Welcome Foreign Trade Co., Ltd. Is registered in 1990 for the export of superior quality hospital equipment, laboratory glassware, teaching models and many other scientific supplies related to the medical / health field. With over 30 years of export experiences and more than 50,000 medical supplies, we are the leader of medical / laboratory instrument supplier in China. We have our own factory and gained many long-term cooperative business partners as well as customers from Vietnam, United States, Singapore, Jordan, Malaysia, and Africa.

Our Mission

-To offer our customers with the premium selection of medical supplies with low price
-To help our customers with passion and provide a comprehensive support
-To gain your trust and be your long-term relationship partner

Our Vision

-To have our product in every corner in the global
-To be the best medical/laboratory/educational products supplier in China
-To bring our customers the health living standards by providing superior quality and comprehensive products globally

X-ray Products

High Frequency Megapixel Mobile/Digital C-arm System

Easier Position

C-arm with a color guide to assist the operator get the right position and nsure the correct operation. Unique block wire wheel design to avoid the danger caused by the compacted cable during move the machine

Intuitive Operation

The control panel with touchable LCD and intuitive button design to make the operation more easier. The control panel can rotated 90° to ensure the surgery more effective.

Compact & Portable

The trolley is special designed for the operation keyboard input, display output, print etc.

XP01 High Frequency X-ray Radiography System

Standard Configurations:
1. X-ray Generator
2. Radiography Bed
3. Control console
4. X-ray Tube

3-phase Power	380V±38V
Power frequency	50HZ±1HZ
Power resistance	≤0.5Ω
tube current	16mA-200mA
tube voltage	40-125KV
standard work frequency	≥30KHZ

1:Three-dimensional tube rack,Integrated bedpost,Can be used in the human body and lateral X-ray photographic film and other diagnostic.

2:Computer program control system, shooting conditions can be set KV priority mode,mA priority control mode, mAs exposure mode and multi-position preset mode of the human body, operation convenience

3:High intelligence, automatic fault detection and fault error code display

4:High-frequency inverter technology, the regional power grid adaptable, X-ray output stable, short time exposure, low dose irradiation, high volume radiation, image contrast clearly

5:DR interface to facilitate the digital upgrade

6:PWM voltage regulation technology, micro-computer CPU technology closed loop control to ensure the product stable and reliable

XP02 High Frequency Mobile System (Digital Version Available)110KV, 3.5kW , 40kHz

XP03 High Frequency Mobile Digital C-arm System(120KV,5kW ,40kHz)

XP04 High Frequency Digital X-ray Radiography System

XP05 High Frequency Digital X-ray Radiography System

XP06 30mA Mobile X-Ray Unit

XP07 30mA Mobile X-Ray Unit Digital

XP08 X-Ray Unit for Mammography

XP09 50mA Bedside Digital X-Ray Unit

XP10 50mA Bedside X-Ray Camera

XP11 100mA Bedside X-Ray Unit

XP12 100mA Medical Diagnostic X-Ray Unit

XP13 100mA Medical Diagnostic X-Ray Unit

XP14 300mA Medical Diagnostic X-Ray Unit

XP15 Full Automation High Speed X-Ray Film Processor

XP16 Full Automation High Speed X-ray Film Processor

XP17 Darkroom Lamp

XP18 Light Adjustable Darkroom Lamp

XP19 X-Ray Film Tank Metal/Plastic 19L.38L

XP20 Lead Apron and Special Coat Hanger

XP21 Standing X-ray Film Cassette Shelf

XP22 Automatic Oral X-Ray Film Processor

1. Micro-computer control, washing and film output
2. Wall mounted
3. Light room operation, small volume, save space, low noise,
4. Replace the cumbersome process of traditional hand-washing film, which overcome problems of low speed and instable quality
5. Developing various oral films in 2-8 minutes, and it can be adjusted acoording to the exposure time
6. Apply to various film size 2*3, 3*4 or 2.7*3.4cm
7. Indication function of liquid expire date, the device is equipped with memory disk of liquid replaced date, convenient the customer to replace liquid timely.

XP23 Dental Films Camera Obscura

1. Suitable for the development of all sizes of dental films and occlusive films(not include panoramic films)
2. Light weight, convenient placement and carrying
3. Three cups in the box, put the developer, fixer and clear water in turn, the liquid height should over the height of the films

XP24 Dental X-ray Films

Sterilizer

SR01 Vertical Pressure Steam Sterilizer (Hand Round Automatic) 35L/50L/75L/100L

1 .Fully stainless steel SUS304/AISI 304-3mm
2. Hand wheel type of quick-open door structure
3. Pressure safety lock
4. Indicator lght indicates working status
5. Over temperature&over pressure auto-protection
6. Double scale indication pressure gauge
7. Self-inflating type seal
8. Self protection of water lacking
9. Automatically shut off with beep reminding after sterilization
10. With two stainless steel sterilizing baskets

Model	SR01-35HJ	SR01-50HJ	SR01-75HJ	SR01-100HJ
Chamber Volume	35L 318*450mm	50L 340*550mm	75L 400*600mm	100L 440*650mm
Working Pressure	0.22Mpa			
Working Temperature	134ºC			
Max.Working Pressure	0.23Mpa			
Heat Average	≤±1ºC			
Timer	0-60min			
Adjustment of Temperature	105-134ºC			
Power	2.5Kw/AC 220V. 50HZ	3Kw/AC 220V. 50HZ	4.5Kw/AC 220V. 50HZ	
Overall Dimension	450*450*1010	510*470*1130	560*560*1120	540*560*1250
Transport Dimension	570*550*1150	590*590*1280	650*630*1280	680*630*1370
G.W/ N.W	72KG/56KG	88KG/68KG	100KG/80KG	110KG/85KG

SR02 Vertical Pressure Steam Sterilizer (Digital Display Automation) 35L/50L/75L/100L

1.Fully stainless steel structure
2.Hand wheel type of quick-open door structure
3. Door safety lock system
4. Digital display of working status, touch type key.
5. Auto discharge the cool air, and steam discharing automatically after steriliazaion.
6. Over temperature& over pressure auto-protection
7. Safe protection of water lacking
8. Self-inflating type seal
9. Automatically shut off with beep reminding after sterilization
10.With two stainless steel sterilizing baskets
11.Possible to install drying system accoridng request.

SR03 Vertical Pressure Steam Sterilizer (Digital Display Automation) 35L/50L/75L/100L

1 . Fully stainless steel SUS304/AISI 304-3mm
2. Door safety lock system
3. Digital display of working status
4. Auto discharge the cool air,and steam discharging auto matically after sterilization
5. Over temperature&over pressure auto-protection
6. Safe protection of water lacking
7. Self-inflating type seal
8. Automatically shut off with beep reminding after sterilization
9. Used for sterilization of medical instruments, medical cotton products.

SR04 Vertical Pressure Steam Sterilizer(Pulse Vacuum Automatic) 50L/75L/100L

1. The chamber of the sterilizer is made of stainless steel
2. Indicator light indicates working state
3. Over temperature & over pressure auto-protection
4. Safe protection of water lacking
5. Double scale indication pressure gauge
6. Automatically shut off with beep reminding after sterilization
7. Easy to operate, safe and reliable
8. With two stainless steel sterilizing baskets

SR05 Vertical Pressure Steam Sterilizer 28L

1. The chamber of the sterilizer is made of stainless steel
2. Indicator light indicates working state
3. Over temperature & over pressure auto-protection
4. Safe protection of water lacking
5. Double scale indication pressure gauge
6. Automatically shut off with beep reminding after sterilization
7. Easy to operate, safe and reliable
8. With two stainless steel sterilizing baskets

SR06 Table Top Steam Sterilizer 20L/24L

1. Indicator light indicates working state.
2. For 4~6 minutes rapidly sterilizing.
3. Sterilizing temperature and time can be preset.
4. Steam-water inner circulation system:no steam discharge,and the environment for sterilizing will be clean and dry.
5. Over temperature & over pressure auto-protection.
6. Safe protection of water lacking.
7. Exhaust the cool air automatically.
8. With three stainless steel sterilizing plates.
9. Fully stainless steel structure
10. Automatically shut off with beep reminding after sterilization.

SR07 Table Top Steam Sterilizer 20L/24L

1. Indicator light indicates working state
2. For 4~6 minutes rapidly sterilizing
3. Sterilizing temperature and time can be preset
4. With inner cycle system of water and steam,no need of outer water source,have a dry clean environment
5. Over temperature&over pressure auto-protection
6. Safe protection of water lacking
7. Exhaust the cool air automatically
8. Door safety lock system
9. With three stainless steel sterilizing plates
10. The chamber of the sterilizer is made of stainless steel
11. Automatically shut off with beep reminding after sterization

SR08 LB01106 Horizontal Cylindrical Pressure Steam Sterilizer 150L/200L/280L/400L/500L

1. Sterilizing course automatic sterilization controlled,easy to operate.
2. With drying function,suitable dressing drying.
3. With over-temperature,over-pressure auto-protect device.
4. The door opening mechanism cannot be operated until the pressure in the chamber is reduced to 0.027MPa.It can't be start on if the door doesn't close well.
5. The safety value will be open automatically when the inner pressure over 0.24MPa,and the steam be exhausting to the water tank.
6. The power will be cut-off automatically,cut-off the water and alarm when the machine lacking water.
7. The chamber of the sterilizer is made of stainless steel.

SR09 LB01107 Horizontal Cylindrical Pressure Steam Sterilizer 150L/200L/280L/400L

1. Sterilizing course automatic sterilization controlled,easy to operate.
2. With drying function,suitable dressing drying.
3. With over-temperature,over-pressure auto-protect device.
4. The door opening mechanism cannot be operated until the pressure in the chamber is reduced to 0.027MPa.It can't be start on if the door doesn't close well.
5. The safety value will be open automatically when the inner pressure over 0.24MPa,and the steam be exhausting to the water tank.
6. The power will be cut-off automatically,cut-off the water and alarm when the machine lacking water.
7. Fully stainless steel structure.

SR10 LB01108 Water Distiling Apparatus Tower Type Electrically Heated 5L/10L/20L

The pure distilled water is one of the most useful liquids in the hospitals, healthcare centers,
research institutes and analytic laboratories This still is specially designed for these places to prepare
the pure distilled water will be produced through this apparatus as the quality of the raw water supping
into the still meets with the specifications of the drinking water of the city.

Model	SR10 -5L/h	SR10 -10L/h	SR10 -20L/h
Output	5 liters/hour	10 liters/hour	20 liters/hour
Power	AC220V/ 4.5KW	AC380V/7.5KW	AC380V/ 13.5 KW
Package	540×270×490mm	610×310×570mm	740×400×680mm
Weight	9 kg	11 kg	17 kg

SR11 Portable Pressure Steam Sterilizer(Automatic Microcomputer Type) 18L/24L

SR12 Portable Pressure Steam Sterilizer 18L/24L

SR13 Portable Pressure Steam Sterilizer(Electric or LPG Heated) 12L/18L/24L

SR14 Portable Pressure Steam Sterilizer 18L/24L

SR15 Portable Pressure Steam Sterilizer(Electric or LPG Heated) 18L/24L

SR16 Portable Pressure Steam Sterilizer(Electric or LPG Heated) 12L

SR17 Table Top Steam Sterilizer 16L/24L

SR07 Table Top Steam Sterilizer 20L/24L

SR19 Table Top Steam Sterilizer 35L/50L

SR20 Pulsating Vacuum Desktop Steam Sterilizer 20L/24L

SR21 Pulsating Vacuum Desktop Steam Sterilizer 35L/50L

SR08 Horizontal Cyindrical Pressure Steam Sterilizer 150L/200L/280L/400L/500L

SR22 Horizontal Cylindrical Pressure Steam Sterilizer(Microcomputer Control) 150L/200L/280L

SR10 Water Distiling Apparatus Tower Type Electrically Heated 5L/h, 10L/h, 20L/h

SR23 Ultraviolet Lamp Trolley

SR24 Wall Mounted Water Distillation Electric
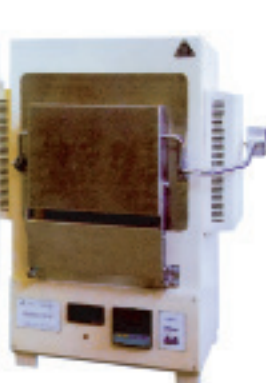

SR25 Electric-heating Distiling Apparatus S/S

SR26 Auto-control Horizontal Steam Pressure Disinfector

SR27 Stainless Steel Autoclave

SR28 Stainless Steel Autoclave

SR29 Muffles Furnace

SR30 Electric Heated Sterilizer

Oxygen Products

Portable Phlegm Suction Unit Series

OP01 Portable Phlegm Suction for Adult

7E-A portable phlegm suction unit is a newly designed oil-free lubrication pump based on extensive design experience and development trend of domestic and overseas products. It is specially designed for absorbing thick liquid such as blood, phlegm etc. it is not only used as aspirator in operation room, emergency room, but also at home as health care product.

Features:
1. High negative pressure, large flux, low noise. It is a brand new mechanism design with suction bottle hidden inside and square negative pressure meter crust completely mad of plastic. This design not only reduces the working noise but also makes it more fashionable and precise.
2. It adopts advanced overflow-protection design, which can prevent pus and mucus from leaking into the machine.
3. Compact, lightweight, and easy to carry especially suitable for emergency and outside use.

Technical Data:
Power supply: AC220V± 10%, 50Hz±2%
Power: ≤90VA
Max negative pressure value: ≥0.075MPa
Pumping rate: ≥18L/min
Noise:≤ 65dB (A)
Reservoir volume: 1000mL, 1piece

OP02 Portable Phlegm Suction for Children

Portable suction apparatus for children

Adopting oil-free lubrication piston pump, square negative pressure dial. Small size, low noise, easy to carry, built-in bottle is more suitable for children's use

Technical Data:
Voltage: AC220V± 10%, 50Hz± 2%
Power: 90VA
Max negative pressure value: ≥ 0.075MPa
Pumping rate: 15L/min
Noise: ≤ 65dB (A)
Reservoir volume: 1000mL, 1piece

OP03 Portable Phlegm Suction Unit

Designed with streamline shape, easy to carry, with heat release system, circular negative pressure meter, half hidden type liquid storage bottle and a detachable power line.

Technical data:
Power supply: AC220V±22V, 50Hz±1Hz
Input power: 90VA
Max negative pressure value: ≥0.075MPa
Pumping rate: ≥15L/min
Noise: ≤ 65dB (A)
Reservoir volume: 1000mL, 1piece

OP04 Electric Suction Apparatus

Features:
Adopting oil-free piston pump
Clean-without pollution of oil and smoke
Convent-no need add oil to maintain daily
Safe-no plus pressure during using
No flow backwards pressure when the machine stops,so the liquid won't flow backwards
Complete plastic panels, hand-switch and foot-switch for operating easily. Select negative pressure at will with no level for pressure adjustment, and overflow protection mechanism, safe and reliable.

Technical Data:
Max negative pressure: ≥0.09MPa
Noise:≤ 65 dB (A)
Power: ≤180VA
Pumping rate: ≥20L/min
Reservoir capacity: 2500mL/pc, 2pieces

OP05 Oxygen Concentrator

Apply zeolite molecular sieve as shift, adopt advanced physical theory(PSA) to separate oxygen and nitrogen in air, at the same time filter the bad subtance in air, so as to get pure oxygen for medical use.

Technical Data:
Power supply: AC220± 22V, 50± 1Hz
Input power: ≤ 350VA
Oxygen concentration: ≥ 93± 3%
Oxygen flow: 1~3L/min
Output pressure: 0.04~0.05MPa
Oxygen temperature: Room temperature
Operation noise: ≤ 60dB(A)

Oxygen Concentrator
Stable Medical Grade

Features:
1,cumulative time function;
2,Exceed press safety valve helping safe ensure.
3,Install power cut warning function.
4,high pressure and low pressure alarming function
5,(7F-5 Double flux) shunt design, two users are provided with oxygen at the same time.
6,(7F-5W with nebulizer function)provides atomization function, maximum nebulizing rate≥0.2mL/min
7,(7F-5 with cord controller)oxygen concentrator and oxygen intake device can be separated, to realize the remote control and use continuous operation

OP06

Power supply:~220V±22V,50Hz±1Hz
Size:445×372×680mm
Oxygen flow:1~5L/min
Oxygen concentration:≥90%
Weight:28kg
Input power:500VA
Output pressure:30~70kPa
Operation noise:≤60dB(A)

OP08

Flow range: 0.5~8L/min
Oxygen concentration:95.5%~87%
Output pressure: 40~70kPa
Pressure relief mechanism operates at: 250kPa±25kPa
Operation noise level: ≤55dB(A)
Input power: 500VA

OP09

Flow range:0.5~10L/min
Oxygen concentration: 95.5%~87%
Output pressure: 40~70kPa
Pressure relief mechanism operational at: 250kPa±25kPa
Operation noise level: ≤60dB(A)
Input power: 850VA

Oxygen outlet
Flowmeter
Humidifier bottle
Display pannel
Flowmeter knob
Circutbreaker
Detect button
Power

PSA

The filtered air will goes into the compressor and it will compress the air into the molecular sieves, one of the molecular sieve produces oxygen with Pressure Swing Adsorption(PSA) and another starts low pressure desorption. The oxygen will then store in the oxygen tank before gives to patient.

OP07 Mini

Features
1,cumulative time function;
2,Exceed press safety valve helping safe ensure.
3,Install power cut warning function.
4,high pressure and low pressure alarming function
5,(7F-5 with cord controller)oxygen concentrator and oxygen intake device can be separated, to realize the remote control and use

G.W/N.W:
15/13KG
Packing:
1pc/carton
89*31*30.5cm

OP10 Oxygen Cylinder with Trolley 10L

OP11 Oxygen Concentrator (3L)

OP12 Oxygen Concentrator (5L)

OP13 Oxygen Regulator

G.W/N.W: 10.2/9.5KG
Packing: 1pc/carton
76*26*19.5cm

OP14 Oxygen Cylinder 4L

OP15 Oxygen Cylinder All Size

OP16 Oxygen Regulator

OP17 Oxygen Mask without Nebulizer

OP18 Oxygen Mask with Nebulizer

OP19 Nasal Oxygen Cannula

Lamp
&Equipment

LE01 Cold Light Operation Lamp

(Lx)Illuminance	≥40,000
(K)Color Temp	3800±500
Power Voltage	220V/50Hz
(W)24V Power of Bulb	100(25×4)
(W) Input Power	115

LE02 Cold Light Operation Emergency Lamp (with Battery)

(Lx)Illuminance	≥50,000
(K)Color Temp	4000±500
Power Voltage	220V/50Hz
(W)24V Power of Bulb	125(25×5)
(W) Input Power	280
Emergency hours	2 hours

LE03 Cold Light Single-reflector Surgical Lamp

(Lx)Illuminance	25,000 Stepless Light Adjusting
(K)Color Temp	3000±500
Power Voltage	220V/50Hz
(W)24V Power of Bulb	50
(W) Input Power	89

LE04 EL Series Surgical Lights 400/500/700

(Lx)Illuminance	40,000-80,000
(K)Color Temp	4300±300
Power Voltage	220V/50Hz
(W)24V Power of Bulb	150
(W) Input Power	100(120,150)
Diameter of Spot (mm)	160
Illumination Depth (mm)	> 1200
Light Adjusting Steps	8 Steps

LE05 Cold Light Five-reflector Surgical Lamp (Mobile Type)

(Lx)Illuminance	≥50,000
(K)Color Temp	3000-4000
Power Voltage	220V/50Hz
(W)24V Power of Bulb	25×5
(W) Input Power	200

LE06 Cold Light Deep Surgical Light

(Lx)Illuminance	≥40,000
(K)Color Temp	4000±500
Power Voltage	220V/50Hz
(W)24V Power of Bulb	50
(W) Input Power	75

LE07 LED Light Surgical Lamp

LE08 Operation Reflector Lamp

LE09 Cold Light

(Lx)Illuminance	≥10,000 ~60,000 (Main dome)
(K)Color Temp	4300±500
Power Voltage	220V/50Hz
(Ra) % Color Index	92Cri
(W) Input Power	350
Diameter of Spot (mm)	200±500
Illumination Depth (mm)	> 800
Light Adjusting Steps	5 Steps

LE10 Cold Light Operation Lamp (with battery)

LE11 Angle Poise Lamp Black (White Color Available)

LE12 Operation Lamp 600/600-III

LE13 Operation Lamp

LE14 Cold Light Series Operation Lamp

LE15 Cold Light Operation Lamp (Theatre Lamp 4 Bulbs)

LE16 Mobile Emergency Lamp (with battery)

LE17 Cold Light Operation Lamp

LE18 Cold Light Operation Lamp

LE19 Cold Light Operation Lamp

LE20 Wall Mounted Operation Lamp

LE21 Cold Light Operation Lamp (with battery)

LE22 Cold Light Operation Lamp (stepless light adjustments, tungsten halogen lamp)

Dual Dome LED Surgical Light Series

Dual Dome Model:
LED750/750
LED750/650
LED750/550
LED650/650
LED650/550
LED550/550

LE23 LED750/550

Illuminance (Lux)	≥110,000 / ≥70,000 (Main dome)
Color Temp. (K)	4300 ± 500 / 4300 ± 500
Diameter of Spot (mm)	200 ± 50 / 200 ± 50
Illuminance Depth (mm)	≥800 / ≥800
Light Adjusting Steps	Five-steps / Five-steps
Power Voltage	~220V/50 Hz / ~220V/50 Hz
Input Power (W)	350 / 350
Color index (Ra)	≥90Cri / ≥90Cri
Recommended Height of Installation (mm)	3000 / 2800

Single Dome LED Surgical Light Series

Single Dome Model:
LED750
LED650
LED550
LEDL550 Floor and Mobile Type

LED 550

LE24 LED650

Illuminance (Lux)	≥100,000 (Main dome)
Color Temp. (K)	4300 ± 500
Diameter of Spot (mm)	200 ± 50
Illuminance Depth (mm)	≥800
Light Adjusting Steps	Five-steps
Power Voltage	~220V/50 Hz
Input Power (W)	350
Color index (Ra)	≥90Cri
Recommended Height of Installation (mm)	2800

LED 750-TV

LE25 Anesthesia Machine

LE25 is an economic type of Anesthesia Machine.
1. The high-precision Vaporizer is designed with a stable concentration output, automatic compensation for pressure, temperature and flow rate. And it is available to choose one kind of gas from Halothane, Enflurane, Isoflurane, and 2. Sevoflurane, ensuring a successful anesthesia operation.
3. Reliable pneumatic transmission system.
4. Economic and proper configuration of technologies, optional as required by the Customer.
5. Modularized design and upgrading. Upgrading is available as required by the Customer.

LE26 Anesthesia Machine

Scope of application: adult, child
Gas source: O2, N2O, Air: 0.28-0.6MPa
Flow meter:O2 : 0.05-1.0L/min   1.1-10L/min
          N2O: 0. 05-1.0L/min   1.1-10L/min
          Air : 0. 05-10L/min
Flow rate of rapid oxygen supply:25-75L/min
Low oxygen pressure alarm There will be sound alarm when the oxygen pressure < 0.2MPa
Respiratory circuitworking mode: all-close, semi-close, semi-open
APL: ≤12.5 kPa
Respiratory Bellows: bellows for adults, tidal volume range:0-1500 ml; bellows for children, tidal volume range:0-300 ml

Hospital Bed &Furniture

HF01 Multifunctional Electric UltraBed (EU Series)
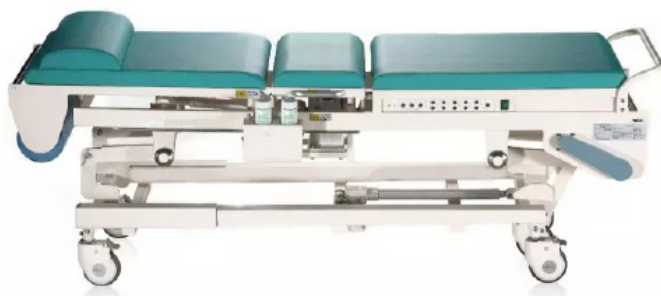

Features:
1. E-intelligence bed sheet replacing & deviation-correcting system
2. Ultrasonic coupling agent heater
3. Vertical adjustment
4. Backrest adjustment (optional)
5. Hip section adjustment(optional)
6. Trendelenburg/Reverse trendelenburg(optional)
7. Horizontal adjustment(optional)

HF02 Multifunctional Electric UltraBed for Intervention (EU/I)

Features:
1. E-intelligence bed sheet replacing &deviation-correcting system
2. Ultrasonic coupling agent heater
3. Vertical adjustment
4. The right back position adjustment
5. Left heart position adjustment
6. Trendelenburg/Reverse trendelenburg (optional)
7. Horizontal adjustment (optional)

Specification:
Load capacity: 175Kgs
Bed length x width: 1900mm x 650mm
Adjustment value of bed height: 590mm~840mm
Head overall slope and leg overall slope:0 ~12°
Horizontal movement:0~420mm
Whole bed weight: 133Kgs

HF03 Multifunctional Electric UltraBed for Cardiac Examination

Features:
1. E-intelligence bed sheet replacing &deviation-correcting system
2. Ultrasonic coupling agent heater
3. Vertical adjustment
4. The right back section adjustment
5. Left heart position adjustment
6. Trendelenburg/Reverse trendelenburg (optional)
7. Horizontal adjustment (optional)

HF04 The Second Generation
Multifunctional Examination Bed(UE)

Features:
1. E-intelligence bed sheet replacing & deviation-correcting system
2. Silent universal casters with brake
3. Bilateral storage cabinet
4. Ultrasonic coupling agent heater (optional)

Specifications:
Load capacity:180Kgs
Bed length x width: 1900mm x 630mm
Whole bed weight: 55Kgs

HF05 Electric Gynaecology and
Obstetrics Examination Bed(GB Series)

GB1:

Features:
1. Vertical Adjustment
2. Back position adjustment
3. Lithotomy position design
4. Special semicircular groove plate

Specifications:
Load capacity: 170Kgs
Bed length x width: 1190mm x 650mm
Vertical movement: 600mm~830mm
Adjustable angle of backrest:0 ~55°
Whole bed weight: 82Kgs

GB2:

Features:
1. Vertical Adjustment
2. Back position adjustment
3. Lithotomy position design
4. E-Intelligence bed sheet replacing & deviation-correcting system

Specifications:
Load capacity: 170Kgs
Bed length x width: 1190mm x 650mm
Vertical movement: 600mm~830mm
Adjustable angle of backrest:0 ~55°
Whole bed weight: 82Kgs

HF06 Multifunctional Electric UltraBed
for Endoscopy(EU/E Series)

Features:
1. E-intelligence bed sheet replacing & deviation-correcting system
2. Four wheels central control system
3. Vertical adjustment
4. Backrest adjustment
5. Trendelenburg/Reverse trendelenburg
6. Air sterilizing and refreshing device (optional)

Specification:
Load capacity: 175Kgs
Bed length x width: 1900mm x 650mm
Vertical movement: 0~420mm
Head overall slop and leg overall slope:0 ~12°
Whole bed weight: 133Kgs

HF07 The Second Generation Multifunctional Examination Bed(UE)

Features:
1.E-Intelligence bed sheet replacing & deviation-correcting system
2. Mute and universal casters

Specifications:
Load capacity: 180Kgs
Bed length x width: 1900mm x 630mm
Whole bed weight: 55Kgs

HF08 Multifunctional Medical Bed(UP/S)

Features:
1. E-intelligence bed sheet replacing &deviation-correcting system
2. Silent universal casters with brake

HF09 Doctor Chair Series

Features:
1. Special design for doctor
2. Ease strain of lumbar muscle
3. Ease tiredness and nerve compression, prevents shoulder periarthritis, etc.
4. Balanced safety and weights lock function
5. Height adjustment
6. The back can be adjusted in 10 degrees
7. Foot holder can be moved up and dow in 400mm

HF35 Traction bed Model

This bed is suitable for cervical vertebra and lumber vertebra disease.

It can be shifted to successive or intermittent tractio model. Computer software controlling, touch-screen. Cervical vertebra and lumber vertebra traction may be carried out at the same time.It also has monitori-ng &controlling over traction force p-rotetong device to ensure the patien-t's safety.

Traction Bed(Model JHDQ-02A), with micro-computer software and big integrated circuit, has the force of good design,high accurate, and sound function, The bed has the varied traction mode such as incline,sway besides horizontal so that the insufficient of the single motion can be hurdled.

For the patient with lumbar vertebra side-bedding, no physiology radian or back-projecting, the bed may have horizontal straight and inclining traction. shifting to the patient's inclining angle,increasing the clearance of the lumbar vertebra to get the treating goal. The bed also has good treating result for lumbar back joint disorder,strain of lumbar muscle. The swaying function also can be avaliable during the horizontal straight traction.

HF36 Traction bed Model

HF37 Multi-Purpose Orthopaedics Frame Model

Orthopaedics traction frame 2008 with hanging structure, can be equipped with operating table.It is mainly used on the patient's lower limbs to carry on side or horizontal traction. A variety of positions can be adjusted. Traction frame and the operating table can be used in plug-in connection. Removet the traction trame when no need and can be placed on special stretcher.

HF38 Multi-Purpose Orthopaedics Frame Model

Specifications
Length: 1200mm
Width: 480mm
Height: 800-1030mm

This frame can combination use with various operating tables, It is mainly used for surgical operation of lower limbs. It can carry vout the patients lower limbs traction and can be adjust-ed for different positions.

Height: 680-980mm

## Ordinarty Operating Table

HF48 Ordinary Operating Table

This table is suitable for surgical procedures of the head, neck, thorax and abdomen, and extremities as well as for gynaecological, oto-rhino-laryn-gological and orthopaedics operations. It is characterized by versatility,easy operation, good and cheep. Chassis and inside & outside cover of model BS are stainless steel.

HF49 Ordinary Operating Table

Specifications
Length: 1950mm
Width: 480mm
Height: 750mm

HF50 Ophthalmology Operating Table

HF51 Ordinary Operating Table
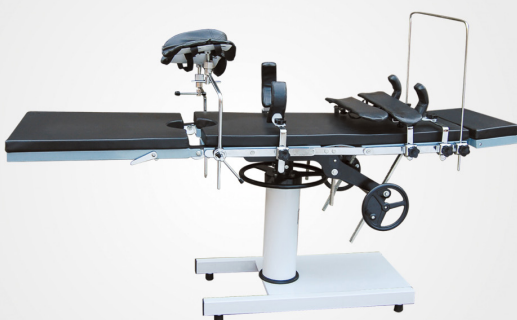

Specifications
Length: 2000mm
Width: 480mm
Height: 750-1000mm

This table is suitable for surgical procedures of the head, neck, thorax and abdomen, and extremities as well as for gynaecological, oto-rhino-laryn-gological and orthopaedics operations. It is characterized by versatility,easy operation, good and cheep. Chassis and inside & outside cover of model BS are stainless steel.

HF52 Multi-purpose Parturition Bed

Multi-Purpose Parturition Bed

HF53 Multi-purpose Parturition Bed

This bed is designed for women's parturition and gynaecological operation. It includes two parts: the bed and the legs. The ascending and descending movements of the bed are controlled by the oil pump. The leading controls the ascending and descending movements of the legs and is operated by the hand wheel. Model JHC-99B possesses the functions of trendelenburg and reversed trendelenburg of bed, and folding functions of back section Model JHC-99C possesses the folding functions of back section and seat section.

HF54 Multi-purpose Parturition Bed

Specifications
Overall length:1900±200mm
Width:600mm
Height:680-930mm
Wastedbowl: L*W*H:295* 245*90mm
Load capacity:180KG
Backrest Section Length: 800±200 mm
Seat Section Length: 400 mm
Backrest Angle Adjustment:10º-60º

HF70 Connecting Transfer Stretcher for Operation

Size: 3650*640*(640*970)mm
The central frame at transitional troley adopt high quality aluminum alloy
Two single beds can be lifted and adjust to the same level
It will be locked automatically when the frame move to a single bed.
Two single beds both adopt advanced brake system, It will be more steady and reliable in the process of transition.
It can prevent cross infection.

Surgery Products

SP01 Disposable Circular Stapler

Application

Disposable Circular Stapler can easily and conveniently anastomose organs by firing into the tissues of alimentary canal two staggered (interior and exterior) rings of titanium staples and cutting off inside tissue with the circular blades simultaneously. The instrument is activated by squeezing the handles firmly as far as they will go. Immediately after staple formation, the knife blade resects the excess tissue, creating a circular anastomosis.

This stapler is used in esophagus stomach and bowel for end-to-end, end-to-side, side-to-side anastomoses.

Product Model

Type	Suture Thickness	Staple height
YWW(I/II)-21	1.0-2.0mm	5.4mm
YWW(I/II)-24	1.0-2.0mm	4.8mm
YWW(I/II)26	1.0-2.0mm	4.8mm
YWW(I/II)-29	1.0-2.5mm	4.8mm
YWW(I/II)-32	1.0-2.5mm	5.0mm

Date
Production Date
Consult the production date on the label of package.

Expiration Date
Sterilized for three years. Consult the expiration date on the label of package

Performance and Composition
Performance: The anastomosis can bear more than 3.6kpa pressure. There is no phenomenon of leaking or tearing. Metals are good at corrosion preventive and the products should be sterilized.

Composition: The product is make up of anvil, protector, chopping block ,elbow piece, indicating screen, fixed handle, adjusting knob, firing handle, safety and purse shaft. The chopping block is composed of cartridge splints, circular blade, nail-pushing sheet and staple

Package

Internal package is sterilized sucking plastic box. Intermediate package is paper box. One device is packed by one box with operation manual and production certificate. Outer package is corrugated box.

Store

Store in ventilated dry no-corrosive house and avoid extrusion abrasion and striking.

SP02 Disposable Hemorrhoids Stapler

Application

Apply for excising mucosa in dentate line

Product Model

Type	Suture Thickness	Stapler Height
YGW(I/II)-32	0.8-1.5mm	4.0mm
YGW(I/II)-34	0.8-1.5mm	4.0mm
YGW(I/II)-36	0.8-2.0mm	4.5mm

Main Material of Accessories

Name	Material	Standard Number
Anvil	12Cr18Ni9	GB/T 1220-2007

	PC	HG/T2503-1993

Performance and Composition

Performance: The anastomosis can bear more than 3.6kpa pressure. There is no phenomenon of leaking or tearing. Metals are good at corrosion preventive and production should be sterilized.

Composition: The product is composed of anvil, chopping block, tighten loop, indicating screen, fixed handle, adjusting knob, firing handle, safety, anorectal dilator, hook, anorectal introducer, anorectal transfixation tool. The chopping block is composed of cartridge splints, circular blade, nail-pushing sheet and staples

Date

Production Date
Consult the production date on the label of package.

Expiration Date
Sterilized for three years. Consult the expiration date on the label of package

Package

Internal package is sterilized sucking plastic box. Intermediate package is paper box. One device is packed by one box with operation manual and production certificate. Outer package is corrugated box.

Store

Store in ventilated and relative humidity less than 80% no-corrosive house

SP03 Disposable Linear Cutter Stapler

Product Model

Type	Suture Length mm	Staple Height mm	Suture Thickness mm	Type of Cartridge Block

Accessories	The height of blue cartridge is 3.8mm.			
	The height of green cartridge is 4.5mm.			

Performance and Composition

Performance: The anastomosis can bear more than 3.6kpa pressure. There is no phenomenon of leaking or tearing. Metals are good at corrosion preventive. Stapler is sterilized by ethylene oxide.

Composition: Cutter stapler is composed of cartridge block, anvil, chopping block, fixed handle, firing handle, percussion button, staple and blade. The cartridge block is composed of cartridges, nail-pushing sheet, locating pin and staples

Main Material of Accessories

Name	Materials
Anvil and chopping block	12Cr18Ni9
Handle	ABS
Shell	ABS
Blade	12Cr18Ni9
Staple	TA3
Cartridge	ABS
Nail-pushing sheet	PC

Application

This stapler is used in digestive reconstruction or other excision surgery for anastomoses.

SP05 High quality blades, invividually packaged in a foil pouch.
All the popular sizes are available in carbon or stainless steel.
Reusable handles available for any blade sizes.

SP06 Surgical Blades(S/S, C/S)

SP07 Surgical Scalpels
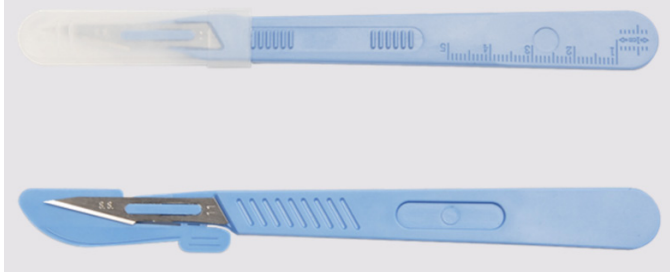

Made with a high quality stainless and carbon steel blade.
Available in most common blade sizes.
Can be used as a part of many procedure trays, kits and packs.

SP08 Surgical Blades(S/S, C/S)

SP09 Sterile Surgical Gloves

SP10 Latex Exam. Gloves(Size S,M,L)

SP11 Polypropylene Catgut

Synthetic non-absorbable monofilament suture.Blue color.

Extruded in a filament with a computer controlled diameter.

The tissue reaction is minimum.

The polypropylene in vivo is extraordinarily stable:ideal to fulfill it is purpose of being a permanent support without loosing its tensile strength.It is unwetted by blood,unweakened by tissue enzymes,offers prolonged tensile strength even in infected areas.

Color code:intense blue label.

Frequently used in tissue confrontation for cuticular use and cardiovascular

SP12 Polyclycolic Acid Catgut

Polyglycolic acid (PGA) is a synthetic suture, ABSORBABLE, Sterile, Multifilament, which meets all requirements established by the USP.

It is degraded by chemical hydrolysis, which is absorbed and metabolized by the human body.

The absorption process is followed by a mass loss and fully reabsorbed within 90 days.

It is coated with polycaprolactone and calcium Stearate.

Available in Violet color and it is sterilized by ethylene oxide.
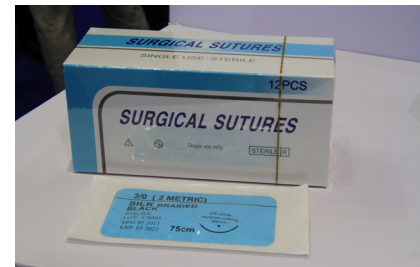

SP13 Silk Catgut

Natural multifilament silk suture,non-absorbable.

Black,white and blue color.

It is obtained from the cocoon of the BOMBYX MORI I silk worm.

Tissue reactivity may be moderate.

Tension force is maintained through time although it,decreased until tissue encapsulation occurs.It is tightly braided at a slow controlled rate and electronically inspected during the processing.

Color code:blue label.

Frequently used in tissue confrontation or ties except urologic procedures.

SP14 Plain Catgut

Absorbable animal originated suture twisted multifilament,beige color.

Obtained from the thin intestine serous layer of a healthy bovine free of BSE and aphtose fever.

Beacause it is an animal originated material,the tissue reactivity is relatively moderated.

Color code:yellow color

Frequently used in tissue that have easy healing and that do not require permanent artificial suport.

SP15 Chromic Catgut

Animal originated suture twisted filament,absorbable brown color.

Obtained from the thin intestine serous layer of a healthy bovine free of BSE and aphtose fever.

Because it is an animal originated material the tissue reactivity is relatively moderated.

Color code:brown color.

Frequently used in tissue that have easy healing and that do not require permanent artificial support.
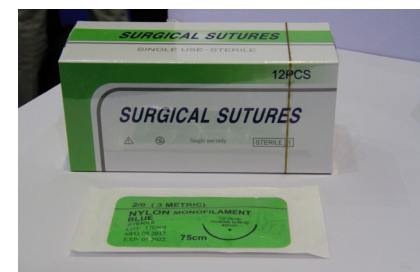

SP16 Nylon Catgut

The tissue reaction is minimum.

Nylon is a non-absorbable material that with time is encapsulated by connective tissue.

It is known that the thread mass diminishes,approximately by 10% a year by the rupture of chemical links in a hydrolytic action.

Coler code:green label

Normally used in various ways of confronting tissue like neurological,ophthalmic and plastic surgery.

Skin & Wound Care

SW01 Zinc Oxide Adhesive Plaster

Description: Backing material is cotten and coated with zinc oxide natural glue and hot melt glue, it provides strong fixation, 100% cotton of carier allows skin perspiration, tears easily by hand.
Available Color: white and skin
Product Size: 1.25cm/2.5cm/5cm*5cm
Package: Simple packing, plastic packing, metal packing
Option: different size and color, brand customization available
Storage: the humidity cannot be over 80%, and temperature is (-5-30)ºC
Shelf Life: 2 years
Certificate: CE/FDA/ISO13485

SW02 Paper Tape

Features:
1. Gentle, air-permeable, non-woven material
2. Especially recommended for geriatric patients or others with fragile skin
3. Conforms and adhere even to damp skin
4. Hypoallergenic

Description: It consists of non woven, medical hypo-allergenic adhesive and inner core, widely used in clinical departments.
Available Color: white and skin
Product Size: 2.5cm/5cm/7.5cm/10cm*5y
Package: Simple packing, plastic packing, metal packing
Option: different size and color, brand customization available
Storage: the humidity cannot be over 80%, and temperature is (-5-30)ºC
Shelf Life: 2 years
Certificate: CE/FDA/ISO13485

Medical Tape

Features:
1. Clear, breathable, plastic material
2. Micro-perforation allows for bi-directional tearing
3. Excellent for IV sites and tubing retention
4. Hypoallergenic

Description: It consists of PE film, medical hypo-allergenic adhesive and inner core, widely used in clinical departments.
Available Color: transparent
Product Size: 2.5cm/5cm/7.5cm/10cm*5y
Package: Simple packing, plastic packing, metal packing
Option: different size and color, brand customization available
Storage: the humidity cannot be over 80%, and temperature is (-5-30)°C
Shelf Life: 2 years
Certificate: CE/FDA/ISO13485

SW04 Cloth Tape

Features:
1. Sturdy rayon/acetate fabric helps secure dressings in place
2. Serrated edges facilitate tearing
3. Durable adhesion with minimal residue on skin
4. Water repellent and hypoallergenic

Description: It consists of silk, medical hypo-allergenic adhesive and inner core, widely used in clinical departments.
Available Color: white and skin
Product Size: 2.5cm/5cm/7.5cm/10cm*5y
Package: Simple packing, plastic packing, metal packing
Option: different size and color, brand customization available
Storage: the humidity cannot be over 80%, and temperature is (-5-30)°C
Shelf Life: 2 years
Certificate: CE/FDA/ISO13485

SW05 Waterproof Tape

Description: Waterproof, oil resistant and easy to write on cotton cloth backing with polyethylene coating provides high tensile strength and will not permit moisture to penetrate to skin or dressing. It is durable and holds securely.
Available Color: white
Product Size: 2.5cm/5cm/7.5cm/10cm*5y
Package: Simple packing, plastic packing, metal packing
Option: different size and color, brand customization available
Storage: the humidity cannot be over 80%, and temperature is (-5-30)°C
Shelf Life: 2 years
Certificate: CE/FDA/ISO13485

SW06 Perforated Zinc Oxide Plaster

Description: It is porous zinc oxide plaster, using special processing to increase the viscosity and permeability of products, especially suitable for all kinds of environment.
Available Color: white, skin
Use: for hand, ankles, arm, knee care
Base Material: cotton, silk
Product Size: 10cm*5m, 18cm*5m
Package: Simple packing, plastic packing, metal packing
Option: size and brand customization available
Storage: the humidity cannot be over 80%, and temperature is (-5-30)°C
Shelf Life: 2 years
Certificate: CE/FDA/ISO13485

SW07 Capsicum Plaster

Description: It is porous zinc oxide plaster, contains capsaicine
Available Color: white, skin
Use: relieve body aches and pains
Base Material: cotton
Product Size: 11cm*17cm, 12cm*18cm
Option: size and brand customization available
Storage: the humidity cannot be over 80%, and temperature is (-5-30)°C
Shelf Life: 2 years
Certificate: CE/FDA/ISO13485

SW08 Sports Tape

Description: the base material is cotten an coated with zinc oxide glue. It is convenient to use
Available Color: white, skin, red, green and more
Use: for general sports protection, cannot be applied to the wound directly
Product Size: 2.5cm*10y, 3.8cm*10y, 5cm*10y, 2.5cm*15y, 3.8cm*15y, 5cm*15y
Package: simple packing, shrink packing
Option: different size and color, brand customization available
Storage: the humidity cannot be over 80%, and temperature is (-5-30)°C
Shelf Life: 2 years
Certificate: CE/FDA/ISO13485

Wound Dressing

Description:

1. Hypoallergenic adhesive mass avoids any skin irritation
2. It is composed of a soft pad and non-woven upper layer or PU film
3. Special island pad absorbs all blood and exodus and provides a soft cushion to the wound. The pad does not stick to the wound

Backing Material: Spunlace, PU
Package: Individually packing, EO sterile
Option: different size and color, brand customization available
Storage: the humidity cannot be over 80%, and temperature is (-5-30)°C
Shelf Life: 2 years
Certificate: CE/FDA/ISO13485

Size: 5cm*8cm, 5cm*10cm, 6cm*8cm,6cm*10cm, 8cm*10cm, 7cm*5cm,8cm*15cm, 8cm*20cm, 10cm*10cm, 10cm*15cm, 10cm*20cm, 10cm*25cm, 10cm*30cm, 10cm*35cm, 15cm*15cm
Component: spunlace non-woven, hot melt glue, 200g absorbent pad
Pouch: paper pouch, paper-poly pouch

SW10 PU Transparent Roll

Description:

1. It makes the skin breathe naturally, and excrete water, air and sweat, and also reduce the chance of infection.
2. Adaptation lighter and thinner fiber lining can make the patients feel comfortable.
3. hypoallergenic and prper viscidity will not irritate the skin and be firmly adhered

Backing Material: Spunlace, PU
Size: 5cm*10cm, 10cm*10cm, 15cm*10cm, 20cm*10cm
Package: Individually packing, EO sterile
Option: different size and color, brand customization available
Storage: the humidity cannot be over 80%, and temperature is (-5-30)°C
Shelf Life: 2 years
Certificate: CE/FDA/ISO13485

SW11 PVC Plasters

SW12 PU Plasters

SW13 PE Plasters

SW14 PVC Color Plasters

OEM Package Example

Description:
1. Coating with hypoallergenic adhesive and place absorbent pad on the centre.
2. It is used widely to care in little wound

Base Material: non-woven and comfortable fabric, flexible fabric, tough strong fabric and cotton fabric, plastic film, clear PEVA, sheer, PU and Foam
Package: customization, EO sterile
Option: different size and color, brand customization available
Storage: the humidity cannot be over 80%, and temperature is (-5-30)°C
Shelf Life: 3 years
Certificate: CE/FDA/ISO13485

Main Size: 72*19, 70*18, 65*19,65*40, 63*25, 60*19,60*18, 40*10, 38*38, 38*19, 30*40, 57*16, 55*19, 76*25, 76*19, 76*50, 100*60, 76*76(quadrangle), 76*45(butterfly), 76*45("8"), 76*38("H"), 76*38, 72*45(oval), 70*12, 45*10,45*51, 95*65, 80*58, 100*50, 114*50

Dental

Pursuit of special modern design ideas !

Products offering good design and function, to those who believing in practicing, flexible work procedure in clinic, fluent teamwork manipulating, putting reliability and utility at first, this is their dream equipment.

DL01 Dental Unit

DL02   Dental Unit

Standard Specification
Painting: Beige
Instrument tray: Top-mounted
4-hole handpiece tube: 3
Control system: 9-memory
Dental chair: Environmental leather
Left-right comverted chair
Spittoon: glass
Glass spittoon: rotated
Operating light: 4 bulbs sensor LED
X-ray film viewer: Standard
High power suction: Air pressure
Saliva ejector system: Water pressure
3-way syringe: 2
Water tank: 2
Junction box: Built-in
Operating stool: AL-338A
Environmental leather
Top-mounted instrument tray
Built-in curing light

Options:
10 blubs sensor LED opearating light
Handpiece
Built-in scaler
Endoscope system
AL-338B opearating stool

Specification:
Power voltage: 220V / 50Hz
Water pressure: 0.20-0.40MPa
Air pressure: 0.55-0.80MPa

DL03 Dental Unit

Standard Specification:
Painting: Beige
Instrument tray: Low-mounted LCD function display
4-hole handpiece tube: 3
Control system: 9-memory
Dental chair: Environment leather Wider cher Synchronized movement
Spittoon: glass
Glass spittoon: rotated
Operating light: 10 bulbs switch LED
X-ray film viewer: Panoramic
High power suction: Air pressure
Saliva ejector system: Water pressure
3-way syringe: 2
Water tank: 1
Junction box: Built-in
Operating stool: AL-338A
Environmental leather
LCD function display

Specification:
Power voltage: 220V / 50Hz
Water pressure: 0.20-0.40MPa
Air pressure: 0.55-0.80MPa

Options:
10 blubs sensor LED opearating light
Top-mounted instrument tray
Handpiece
Built-in scaler
Built-in curing light
Endoscope system
AL-338B opearating stool

DL04 Dental Unit

Standard Specification:
Beige painting
Low-mounted instrument tray
4-hole handpiece tube
9 memory control system
24V dental chair(PU cushion/new chair)
Rotated glass spittoon
LED operating light(sensor switch)
24V X-ray film viewer
High power suction/saliva ejector system
3-way syringe
Net foot switch
Water tank
Built-out junction box
AL-338A operating stool

Options:
Environmental leather
Top-mounted instrument tray
LCD function display
Dental handpiece
Built-in scaler
Built-in LED curing light
Endoscope system
AL-338B operating stool

Specification
Power voltage: 220V / 50Hz
Water pressure: 0.20-0.40MPa
Air pressure: 0.55-0.80MPa

DL05 Dental X-ray Machine

FEATURES:
Use the intermational advanced technology.high-efficiency.
clear imaging low leak radial,is only 1% of national standard
Light touched button,controled with microcomputer,only press
one button to select the exposue parameter,fast and accurately
Developing in light room,image in one minute,the doctor can
diagnose conveniently for maximum
Pneumatic up-down seat,more convenient and more
comfortable
It is for the use of the digital imaging system of mouth

Specifications

Power supply:	AC220V±10%, 50Hz, 1kVA
Tube voltage:	60kVp
Tube current:	8mA
Focus size:	1.5mm/0.8mm
Total filtration:	2.5mmAL
Exposure time:	0.2–4s
Leak radiation:	Outside one meter ≤ 0.002mGy/h (National standard: 0.25mGy/h)

DL06 Wall-mounted Dental X-ray Machine

FEATURES:

Use the intermational advanced technology.high-efficiency.clear imaging low leak radial,is only 1% of national standard

Light touched button,controled with microcomputer,only press one button to select the exposue parameter,fast and accurately

Developing in light room,image in one minute,the doctor can diagnose conveniently for maximum

Pneumatic up-down seat,more convenient and more comfortable

It is for the use of the digital imaging system of mouth

Specification:
Power supply:AC220V+10%,50Hz,1KVA
Tube voltage:60kVp
Tube current:8mA
Focus size:1.5mm
Total filtration:2.5mmAL
Exposure time:0.2-4sec
Leak radiation:Outside one meter<0.002mGy/h(National standard:0.25mGy/h)
Optional:Tube current:0.5mA   Focus size:0.8mm

DL08 Wall-mounted Dental X-ray Machine

Features

Using the international advanced technology,efficient integrated design,high efficiency,low radiation.

Using microcomputer intelligent control,not only remote controlled exposure,but more powerful function of low voltage alarm and high voltage protection.

Micro focus technology,much more clear image and accurate diagnosis.

The base has two modes of mobile and fixed ,pneumatic lift soat ensures more convenient for dentist and more comfortable for patient.

Can use lightroom dental film,imaging in one minute,maximum convenient dentist to diagnose.

Can connect to dental digital imaging system,that is indispensable for clinicians to diagnose and root canal filling.

Specifications

Power supply:	AC220V ± 10%,50HZ,1KVA	Total filtration:	2.5mmAL
Tube voltage:	70KV	Exposure time:	0.2–4s
Tube current:	8mA	Leak radiation:	outside one meter ≤ 0.002Mg/h (national standard:0.25Mg/h)
Focus size:	1.5mm/0.8mm	Package size：	98 × 32 × 45（cm）
Net weight：	27kg	Rough weight：	35kg

DL07 Vertical Dental X-ray Machine

Features

Using the international advanced technology,efficient integrated design,high efficiency,low radiation.

Using microcomputer intelligent control,not only remote controlled exposure,but more powerful function of low voltage alarm and high voltage protection.

Micro focus technology,much more clear image and accurate diagnosis.

The base has two modes of mobile and fixed ,pneumatic lift soat ensures more convenient for dentist and more comfortable for patient.

Can use lightroom dental film,imaging in one minute,maximum convenient dentist to diagnose.

Can connect to dental digital imaging system,that is indispensable for clinicians to diagnose and root canal filling.

Specifications

Power supply:	220V ± 10%,50HZ,1KVA
Tube voltage:	70KV
Tube current:	8mA
Focus size:	1.5mm/0.8mm
Total filtration:	2.5mmAL
Exposure time:	0.2−4s
Leak radiation:	outside one meter ≤ 0.002Mg/h(national standard:0.25Mg/h)
Package size:	144 × 50 × 27（cm）
Net weight:	50kg

DL09 Vertical High Frequency Dental X-ray Machine

Specifications

Tube Voltage：	70KV
Frequency：	200kHz
Time of Exposure：	0.02~4s
Power：	220VAC 50HZ
Tube Current：	8mA
Fucus Size：	0.8mm
Radiation Leakage：	≤ 0.025mGy/h

DL10 High Frequency DC Portable Dental X-ray Unit

固定支架为选配件

This portable dental X-ray unit is high frequency machine. The body is small, light weight and nearly no radiation. It has excellent image quality, portable storage, save more space. It uses high frequency and DC international power supply. All of the components installed in the central PC board concentrated. Shock, set-up, electron tubes, all of them are insulation vacuum, sealed stereotype protection. There are also manual buttons installed on the surface of shell, as well as batteries and charges. This unit mainly suitable for oral pre-treatment for learning internal organizational structure, root depth and so on, is indispensable in daily life clinic equipment, especially for dental implant surgery. It also can connect with sensor, is great convenience.

Specifications

Tube voltage：	60KV	Tube current：	2mA
Exposure time：	0.2–3.2s	Frequency：	200KHz
Tube focus：	0.3mm × 0.3mm	The distance from skin to cone：	130mm
Battery：	DC14.8V 6600mAh	Rated power：	90W
Charger input voltage：	AC100V–240V ± 10%	Output voltage：	DC16.8V
Ambient temperature：	5–40℃	Relative humidity：	<75%RH
Net weight：	2.5kg	Gross weight：	4.8kg
Package size：	330 × 310 × 230（mm）		

DL11 High Frequency DC Portable Dental X-ray Unit

This portable dental X-ray unit is high frequency machine. The body is small, light weight and nearly no radiation. It has excellent image quality, portable storage, save more space. It uses high frequency and DC international power supply. All of thecomponents installed in the central PC board concentrated. Shock, set-up, electron tubes, all of them are insulation vacuum, sealed stereotype protection. There are also manual buttons installed on the surface of shell, as well as batteries and charges. This unit mainly suitable for oral pre-treatment for learning internal organizational structure, root depth and so on, is indispensable in daily life clinic equipment, especially for dental implant surgery. It also can connect with sensor, is great convenience.

Specifications

Tube voltage：	60KV	Tube curren：	2mA
Focus size：	0.4mm × 0.4mm	Frequenc：	300KHz
Exposure time：	0.2−3.2s	Charge voltage：	AC100V−240V 50/60Hz
Battery：	14.8V 6600mAh	Leak radiation：	Outside one meter ⩽ 0.002mGy/h
Focal spot to skin distance：	140mm	Net weight：	2.6kg
Package size：	280 × 270 × 250mm	Gross weight：	5.0kg
